The Reading-North Reading Chamber of Commerce Board of Directors supports Reading's plans to create a Business Improvement District (BID). Reading has grown significantly over the past 5 years, and we recognize the importance of having an entity focused specifically on the unique challenges for businesses in the downtown corridor. Because the Chamber represents 270 businesses across both towns, many of which are outside of the BID area, we cannot always focus our attention and resources exclusively on the issues specific to the downtown Reading. We view the BID as a complement to our work and an added advantage of doing business in Reading. Once the BID is established, we look forward to a supportive partnership, with a coordination of programming and events for our downtown businesses.

Sincerely,

Lisa Egan

Executive Director

On behalf of the Chamber Board of Directors
